INDIA NEEDS CHANGE MAKERS!

OUR AIM

Hum Honge Kamyab Foundation focuses on accessibility needs of People with Disabilities in India. It works towards user-friendliness of buildings, parks, schools, universities and other public/private establishments.

IDENTIFYING OPPORTUNITIES

HHK sensitizes people towards issues faced by people with disabilities and identifies opportunities which they have a potential to excel in. We not only plan but make efforts towards the implementation of strategies. HHK motivates the general public to realize the importance of an all inclusive environment where people with disabilities do not feel excluded.
